

Who is Healthwatch?

healthwatch
Hampshire

We are the independent champion for people who use health and social care services in Hampshire.

We're here to make sure that those running services, put you at the heart of care. We listen to your views, experiences and concerns around services such as hospitals, GPs, dentists and social care.

One of our main purposes is to listen to your views about using health and social care services - whether you had a good experience or a bad one.

We are here to listen to what you think about health and care services in Hampshire and what could be improved. No matter how big or small the issue, we want to hear about it.

We can provide information and signpost you to find the most appropriate health service. We can help you to navigate the NHS complaints service, but we can't make the complaint for you.

If you are having problems with any health or social care service, or have concerns about planned changes to services, we are listening. We work with Hampshire CAB around health and care issues.
